INSTRUCTIONS

- Lid can remain on steamer to replace handle.
- If older style handle ("D" shaped cross section), slide out the vinyl-clad cover to expose the mounting screws. If newer style handle, remove Glossy Plugs with a small screwdriver.
- Unscrew handle screws with a phillips screwdriver. These screws are screwed into weld-nuts that are welded to the inside of the lid. If the screws do not come out, the weld nuts may have broken loose. In this case the whole lid should be replaced.
- Attach the new handle with the screws and spacers supplied, as shown in the sketch below.
- Snap-in the Plugs.

AVOID ERROR IN PARTS SELECTION. When ordering use complete EmberGlo Part Number and Description. Furnish the Product Model Number, Bill of Material Number and Serial Number (if available) from the specification plate found on the product.

IMPORTANT: Availability of parts as well as specifications are subject to change without notice. Please consult factory for item availability.
